Modify report

Changes are versioned and notify the owner/admin review group.

v3

Autosave is available for draft reports and reports needing changes

Equipment

Identify the plant, line, station, and automation equipment involved.

System name **Required**

Remote support diagnostic package

Plant / site

01a02b15-2a6a-759b-9f4e-9d697250d7fa

Area / line

Station / machine

System type

Process automation controls

PLC platform

Rockwell Automation

Controller

CompactLogix 5380

HMI / SCADA

Network protocol

EtherNet/IP

Software version

Studio 5000 v35

Change

Describe the technical change and its production impact.

Program reference

DEMO-REMOTE-SUPPORT-DIAGNOSTIC-PACKAGE

Change summary **Required**

Documented a controlled configuration adjustment and its validation evidence.

Production impact

No production bypasses introduced; validation remains traceable.

Validation / risk

Record validation performed, results, open risk, and rollback information.

Validation

Dry-cycle validation and operator confirmation completed.

Validation result

Passed for the synthetic showcase period.

Open risk / issue

Retain the next observation window in the project register.

Rollback plan

Restore the registered pre-change backup if the observation regresses.

Safety

Flag changes that require safety-impact review.

Safety impact
