

J&A Automation V3 — Diagramas UML Completos

Generados a partir de la revisión del código implementado y la especificación V3.

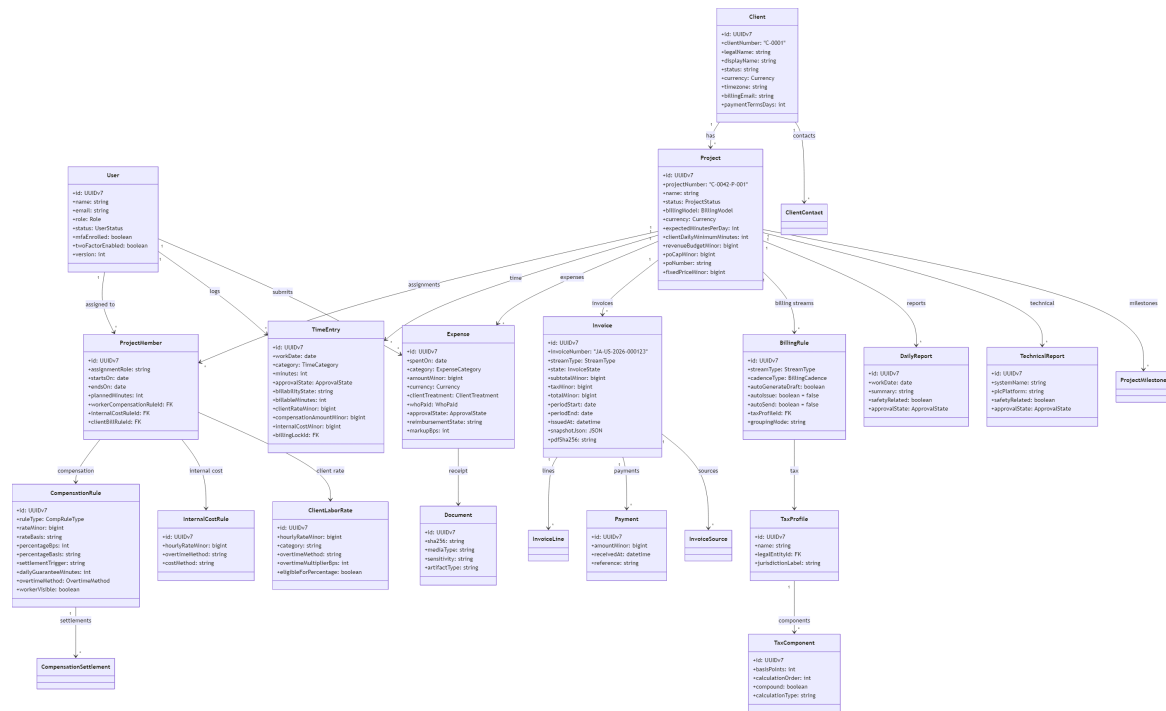

[!NOTE]

Todos los diagramas reflejan el **código realmente implementado** en el repositorio (966 líneas de schema Drizzle, 50+ tablas SQLite, billing-engine, money, domain, portal SvelteKit, website Next.js) cruzado con la especificación V3 de 5.395 líneas.

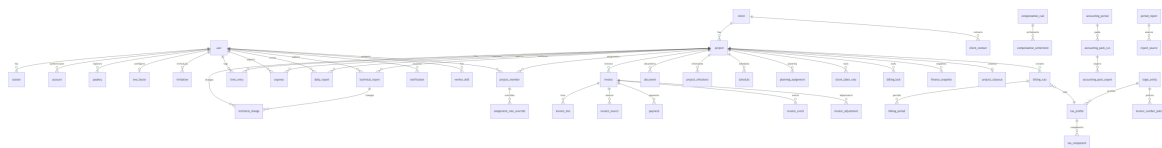

1. Diagrama de Componentes (Arquitectura del Monorepo)

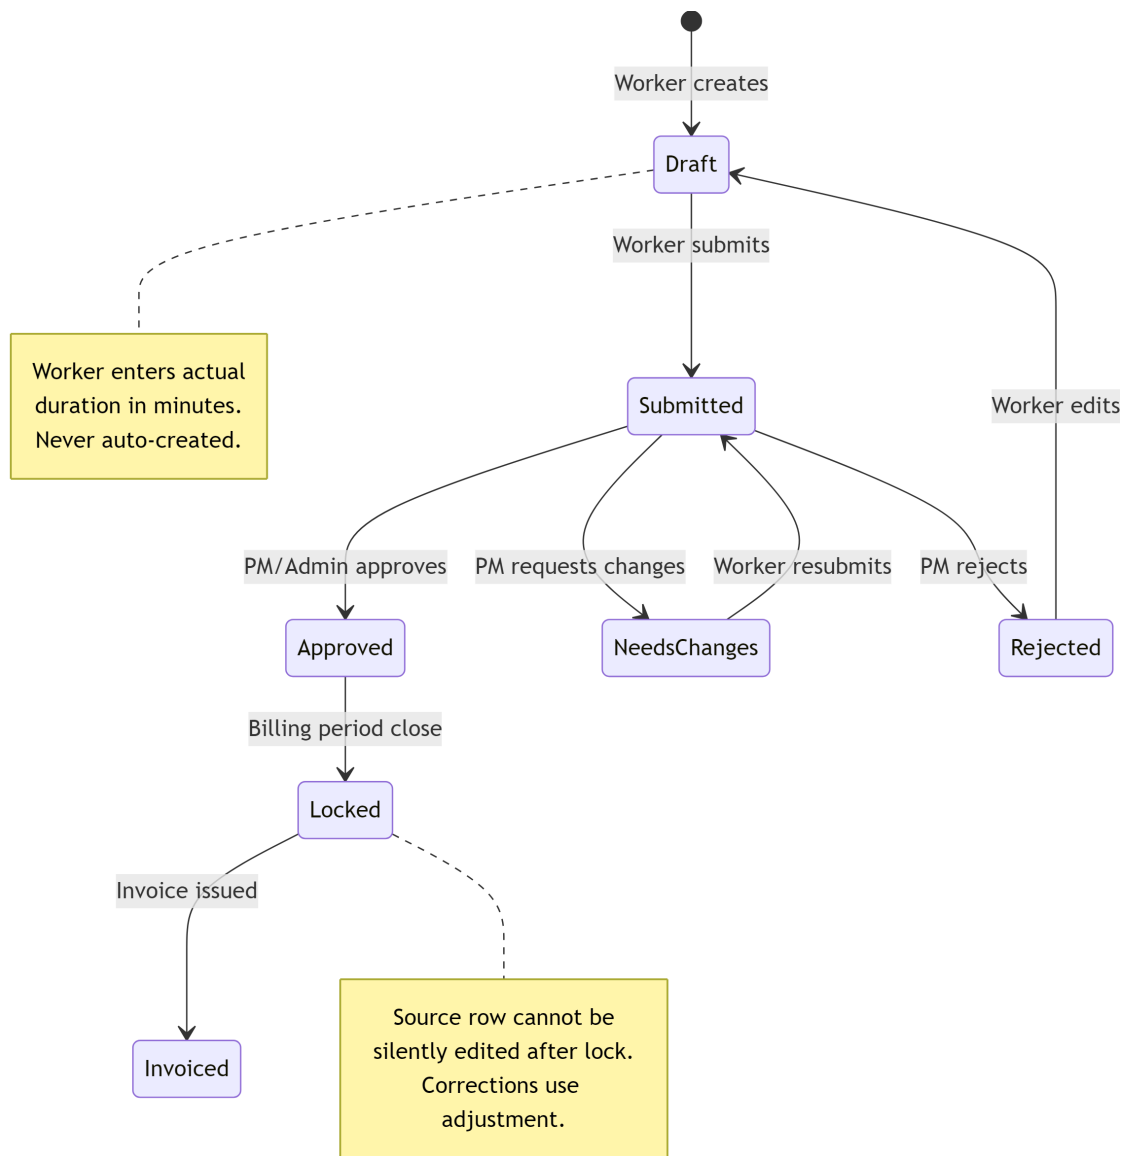

2. Diagrama de Clases del Dominio (Entidades Principales)

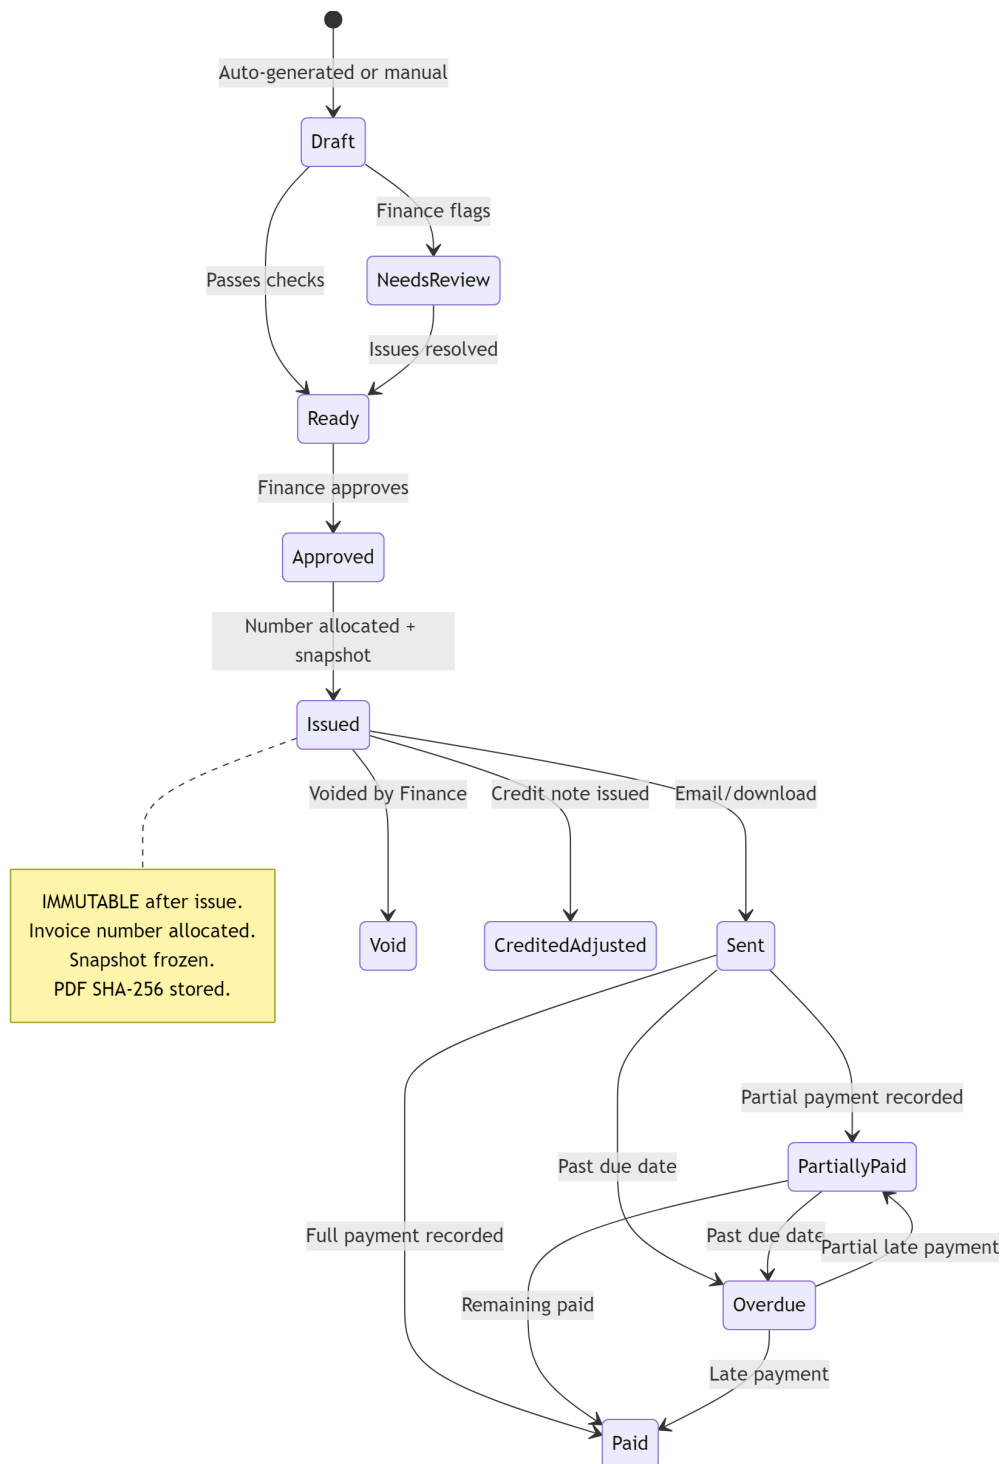

3. Diagrama ER de la Base de Datos (50+ tablas SQLite)

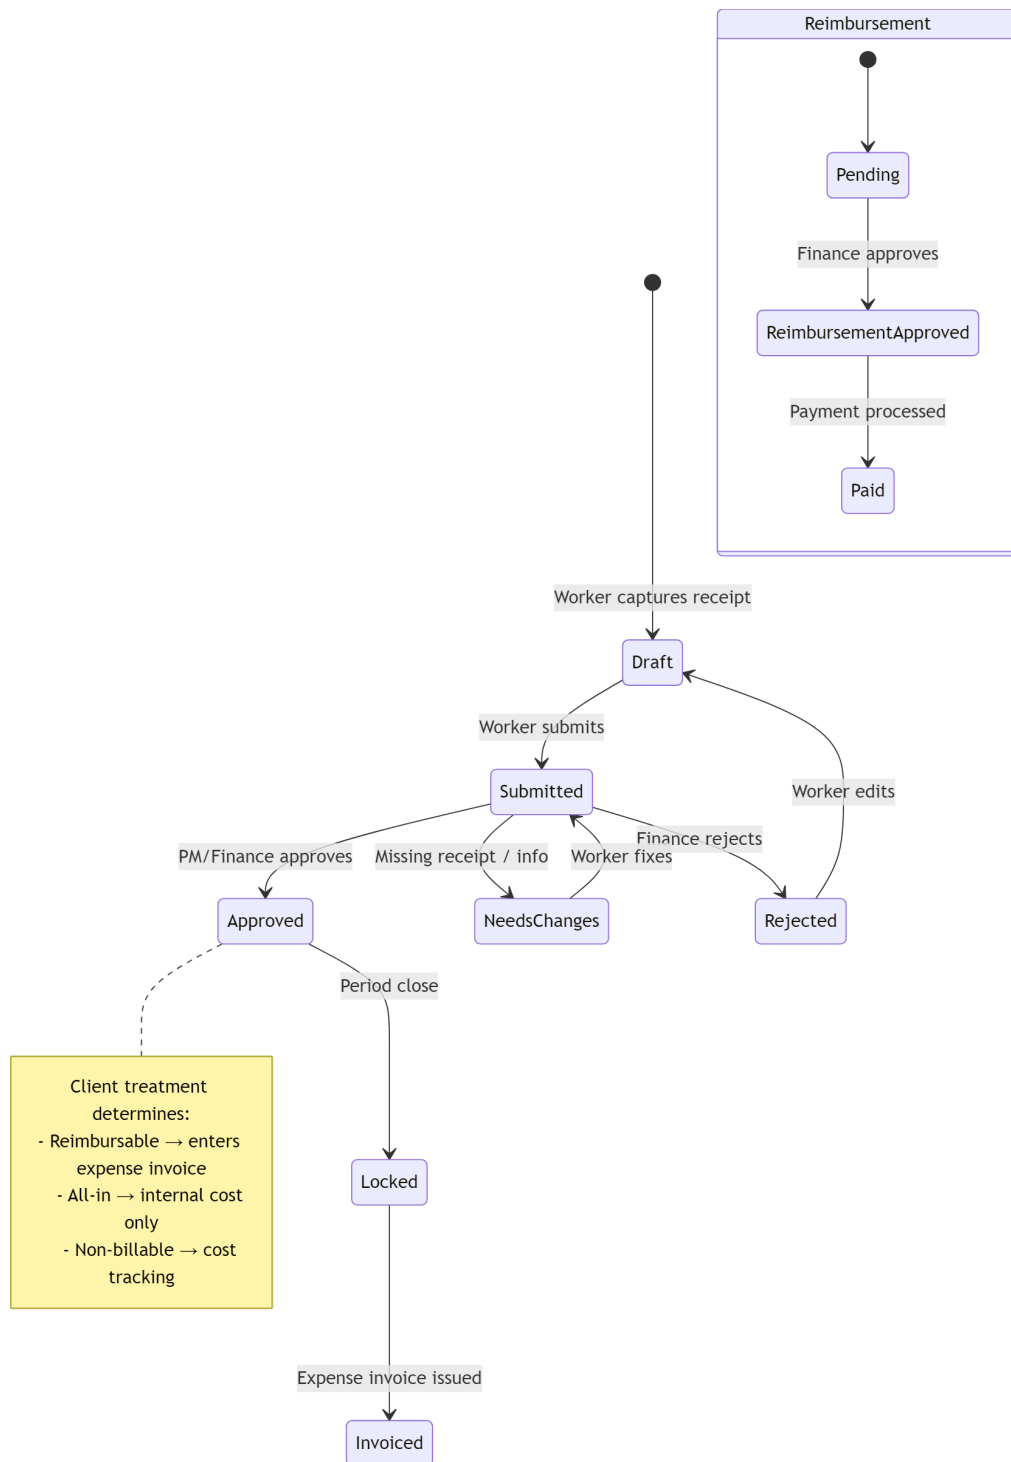

4. Diagrama de Estados — Time Entry

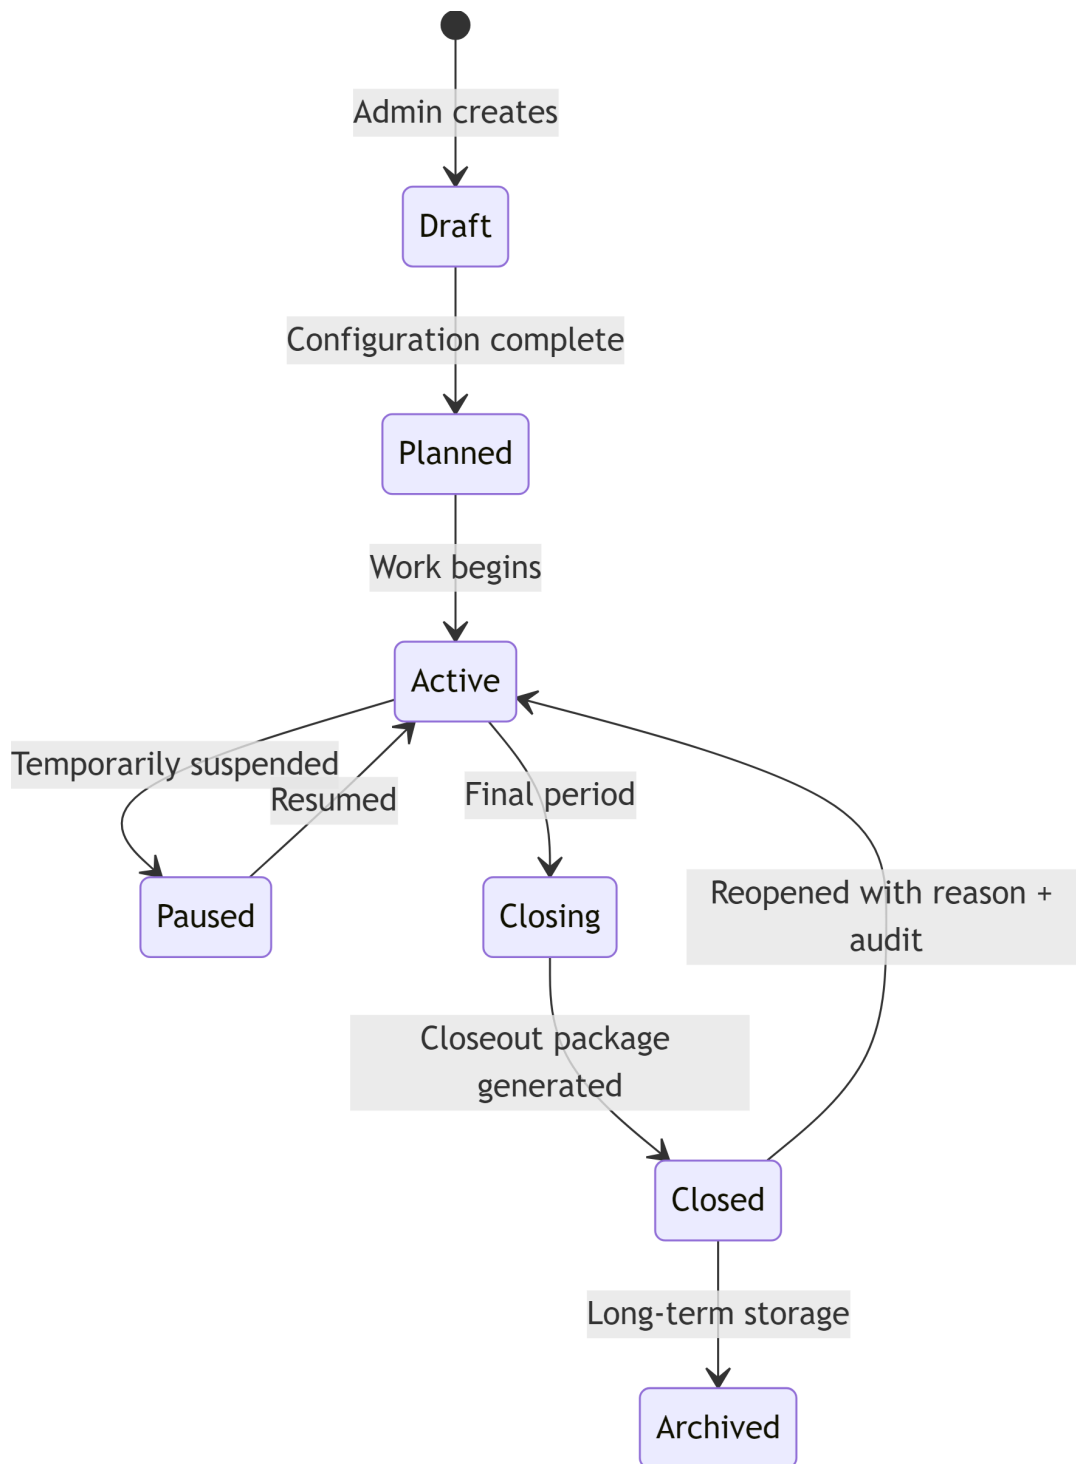

5. Diagrama de Estados — Invoice

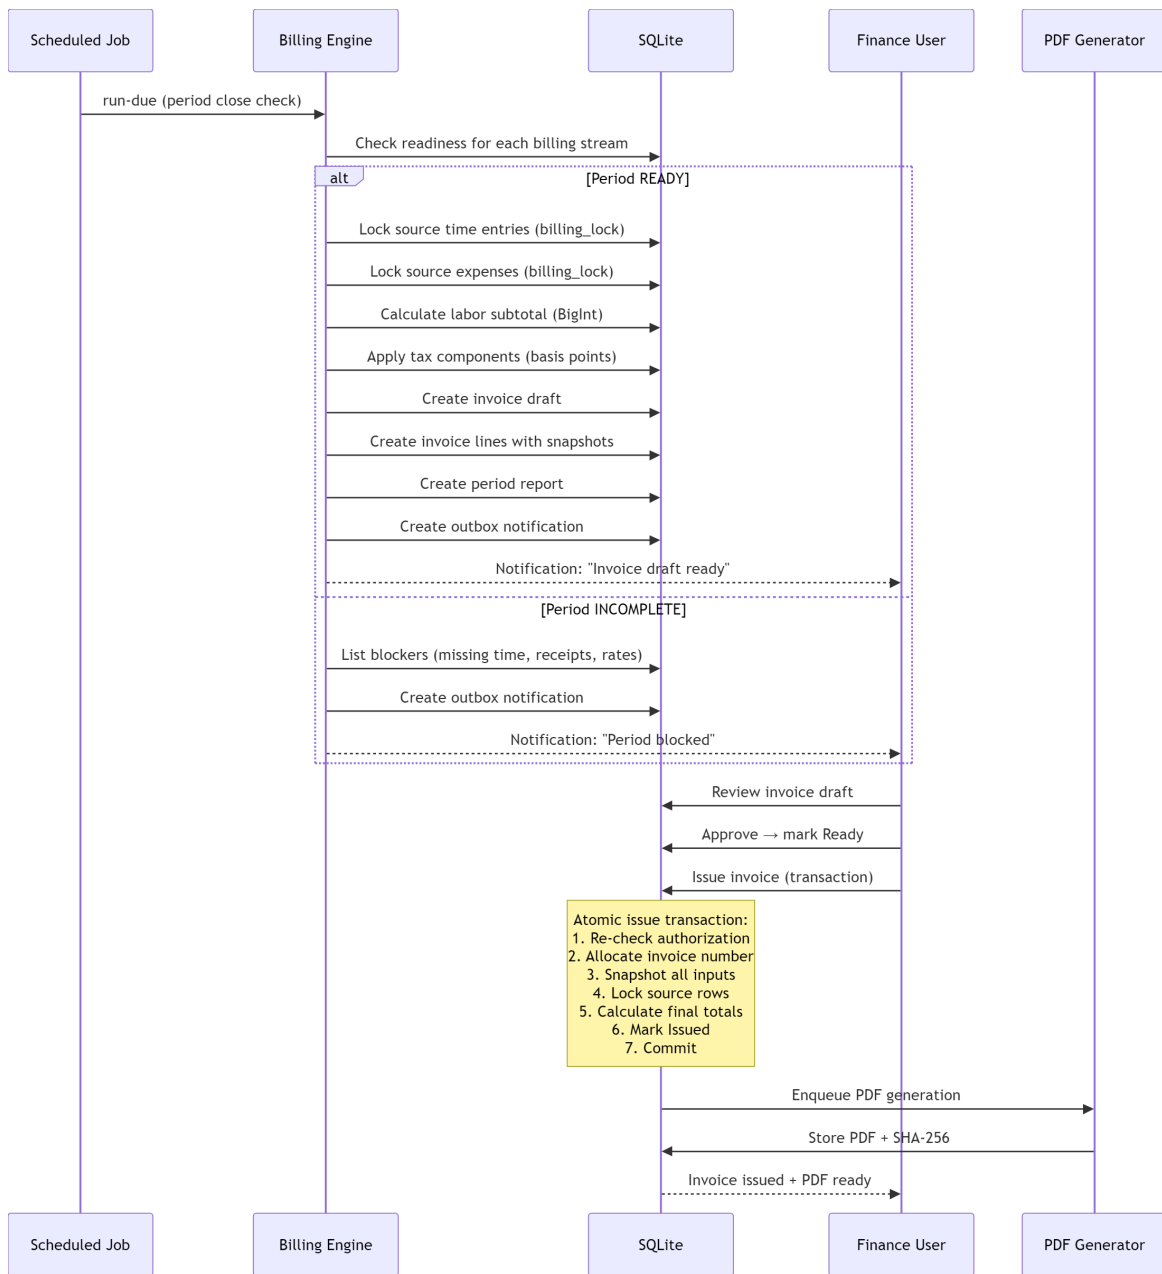

6. Diagrama de Estados — Expense

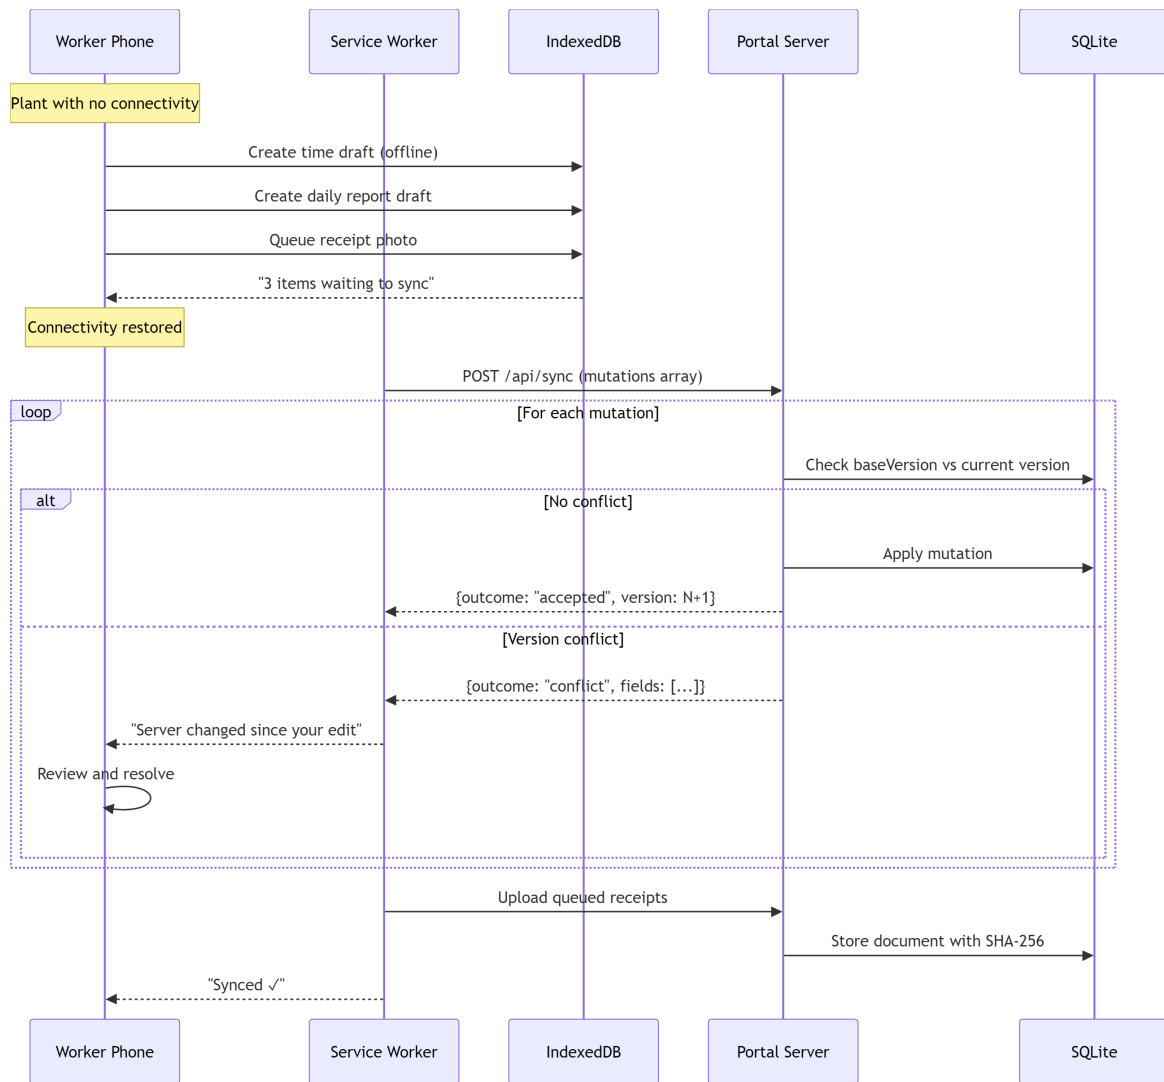

7. Diagrama de Estados — Project

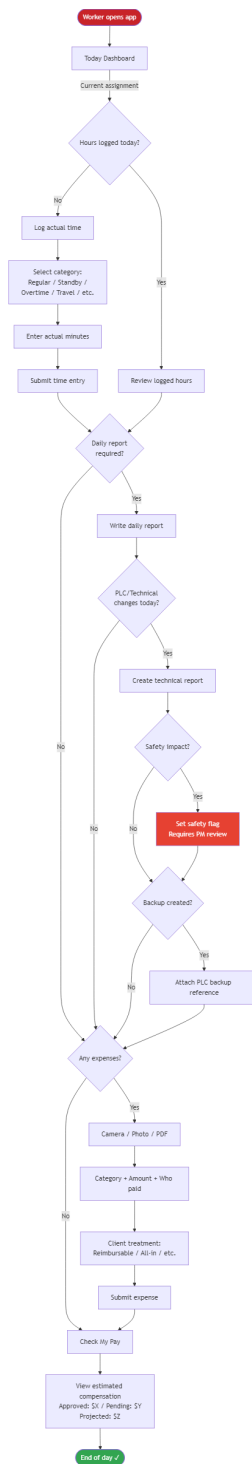

8. Diagrama de Secuencia — Billing Period Close → Invoice Issue

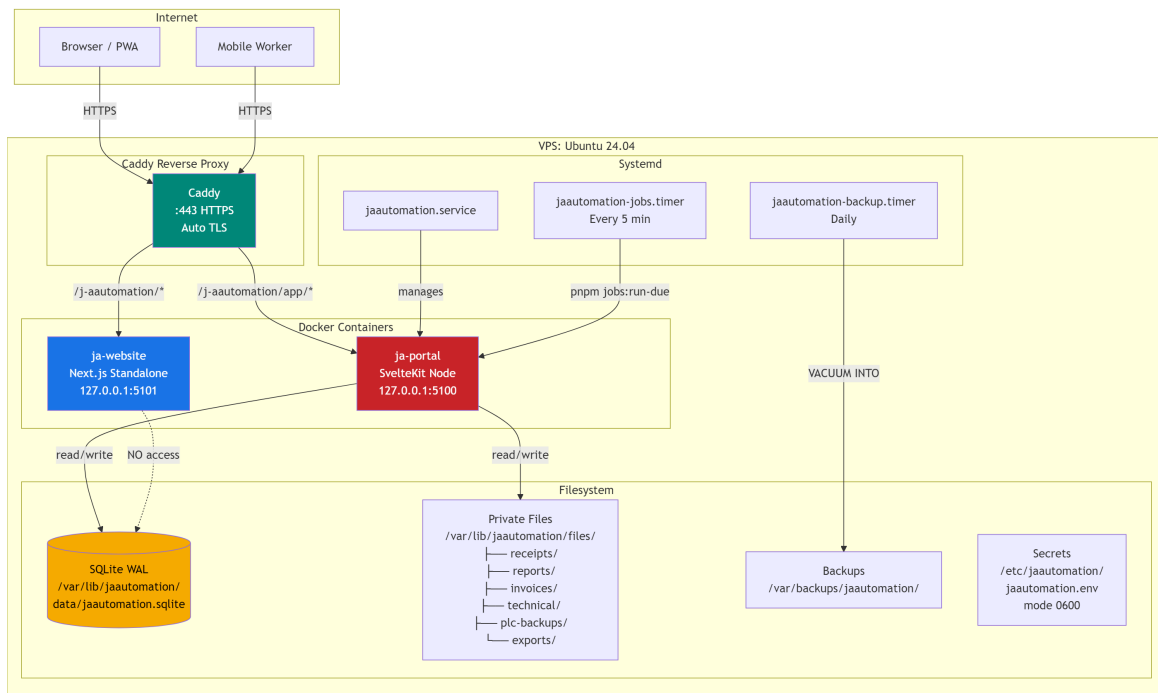

9. Diagrama de Secuencia — Worker Offline Sync

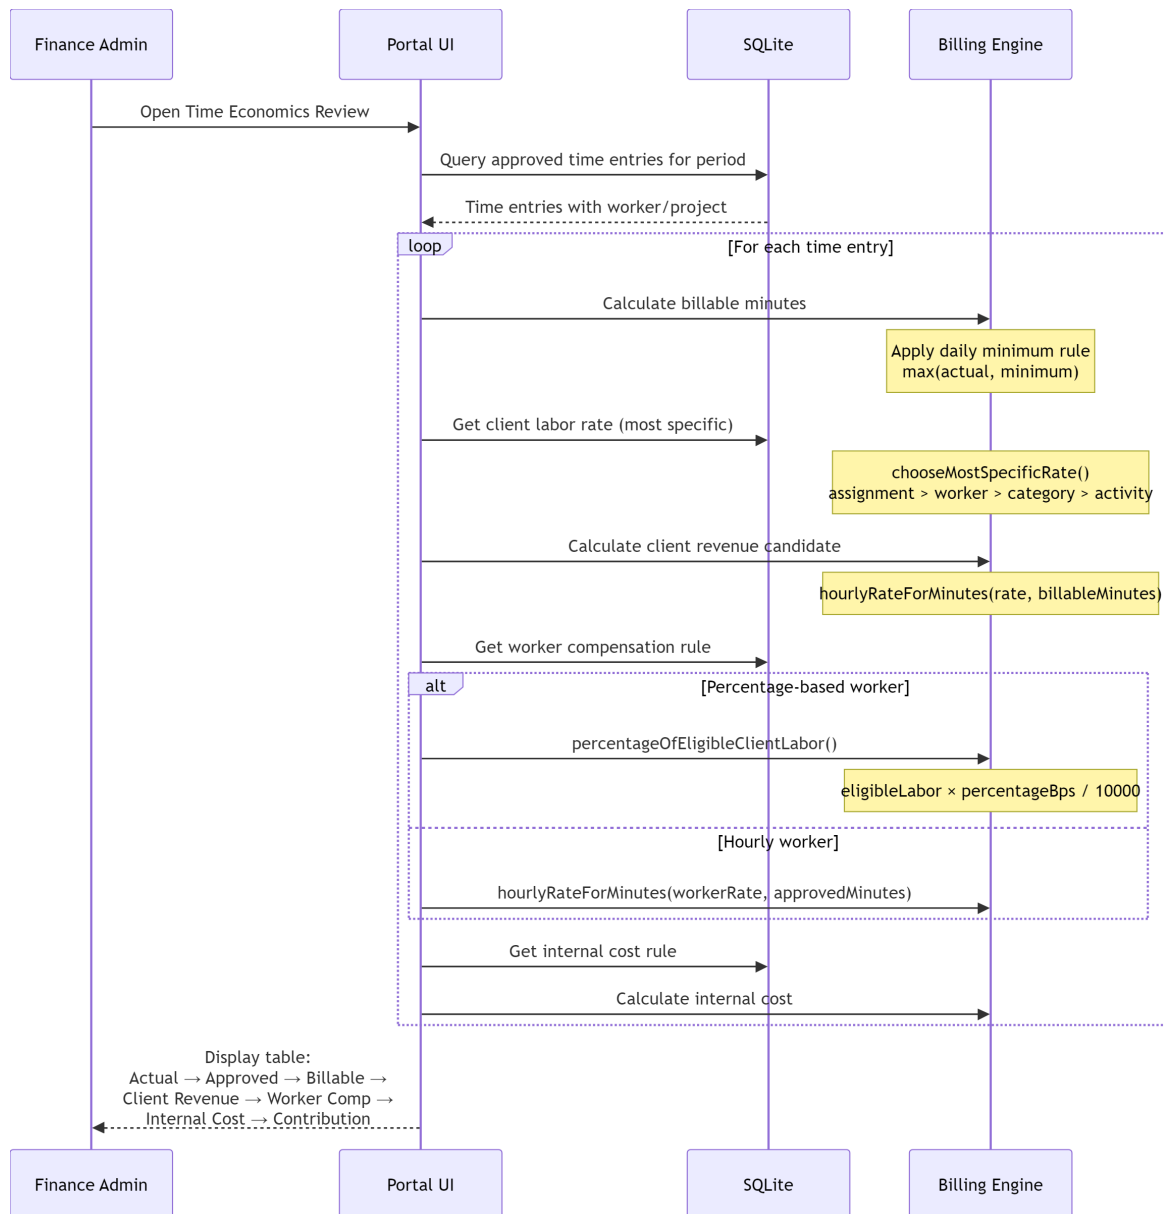

10. Diagrama de Actividad — Worker Daily Flow

11. Diagrama de Deployment (Producción VPS)

12. Diagrama de Secuencia — Finance Time Economics Review

13. Diagrama de Paquetes — Value Objects y Types

Resumen de cobertura Código ↔ V3

Capa	Tablas/Archivos implementados	V3 Secciones cubiertas
Identity	user, session, account, passkey, two_factor, invitation	§6, §36
Clients	client, client_contact	§7.1
Projects	project, project_member, project_milestone, schedule, planning_assignment	§7.2–7.3, §8, §30
Time	time_entry	§9–11
Reports	daily_report, technical_report, technical_change, period_report, report_source	§13–14
Expenses	expense, document	§15
Compensation	compensation_rule, compensation_settlement, internal_cost_rule, assignment_rate_override	§12
Billing	client_labor_rate, billing_rule, billing_period, billing_lock	§16–18
Tax	tax_profile, tax_component, legal_entity	§19
Invoices	invoice, invoice_line, invoice_source, invoice_event, invoice_adjustment, invoice_number_policy, payment	§21–23
Finance	finance_snapshot, accounting_period, accounting_pack_run, accounting_pack_export	§26–27, §32, §67
Notifications	notification, outbox_event	§33
Audit	audit_event, approval_event, document_access_event	§38
Jobs	job, job_run, scheduled_job	§24, §42
Offline	offline_mutation, mutation_receipt	§34
Skills	skill, worker_skill, worker_availability	§31
Closeout	project_closeout	§65
Domain	Principal, Role, ApprovalState, OfflineMutation, SyncResult	§6, §25, §34

Capa	Tablas/Archivos implementados	V3 Secciones cubiertas
Money	Money, Currency, add, subtract, applyBasisPoints, hourlyRateForMinutes	\$20
Billing Engine	periods, dailyMinimum, laborSubtotal, taxComponents, overtimeRate, percentageOfEligibleClientLabor, chooseMostSpecificRate	\$16–19, \$12.2, \$12.4, \$12.6
