J&A Automation · Reviewed 11 October 2026

Historical manual

The following pages describe an earlier release. Screen layout, navigation, approvals and digital workflows have changed. Use the current role manual before performing a task.

Current manuals: Owner, Finance, Project Manager, Auditor, Worker, Crew chief, Supplier Coordinator and External Technician. The current role PDFs are English; Help identifies the language fallback.

Open current Help and role manuals

Earlier screenshots, examples and their original page numbers are retained as historical evidence. This cover does not certify those instructions against today’s application.

External technician guide

Real application screens with synthetic data; no customer information.

Revision 2026-09-19 · Validated capture: 2026-09-19T09:56:05.809Z

Contents

1. Your limited workspace
2. Record your actual work
3. Expenses and reports
4. Profile and availability
5. If a project disappears

Your limited workspace

Use only your own invited account. The Owner links you to a supplier and an authorized installation with effective dates. Your operational workspace may include your own **Time**, **Expenses**, **Reports** and **Profile**. You do not manage the supplier team or approve hours. My Pay, worker statements, compensation, rates, margins, finance, billing and administrative exports are not available to this profile.

Record your actual work

In **Time**, choose the permitted installation, actual work date, category, duration and factual description. **Save draft** keeps an unfinished entry; **Submit** sends it to J&A review. A planned date is not actual time. For a returned item, read the reason and follow the correction flow; do not duplicate or alter approved history. Supplier-origin operational time needs Owner review.

Expenses and reports

In **Expenses**, enter the actual payer, amount, currency, date and work reason and attach a readable permitted receipt. Keep the original until the portal confirms storage. In **Reports**, use a Daily factual summary or Technical / PLC evidence for diagnosis, work and validation as applicable. Do not claim a test passed when it did not. Internal review is not customer acceptance, a payment or authorization to disclose a file.

Profile and availability

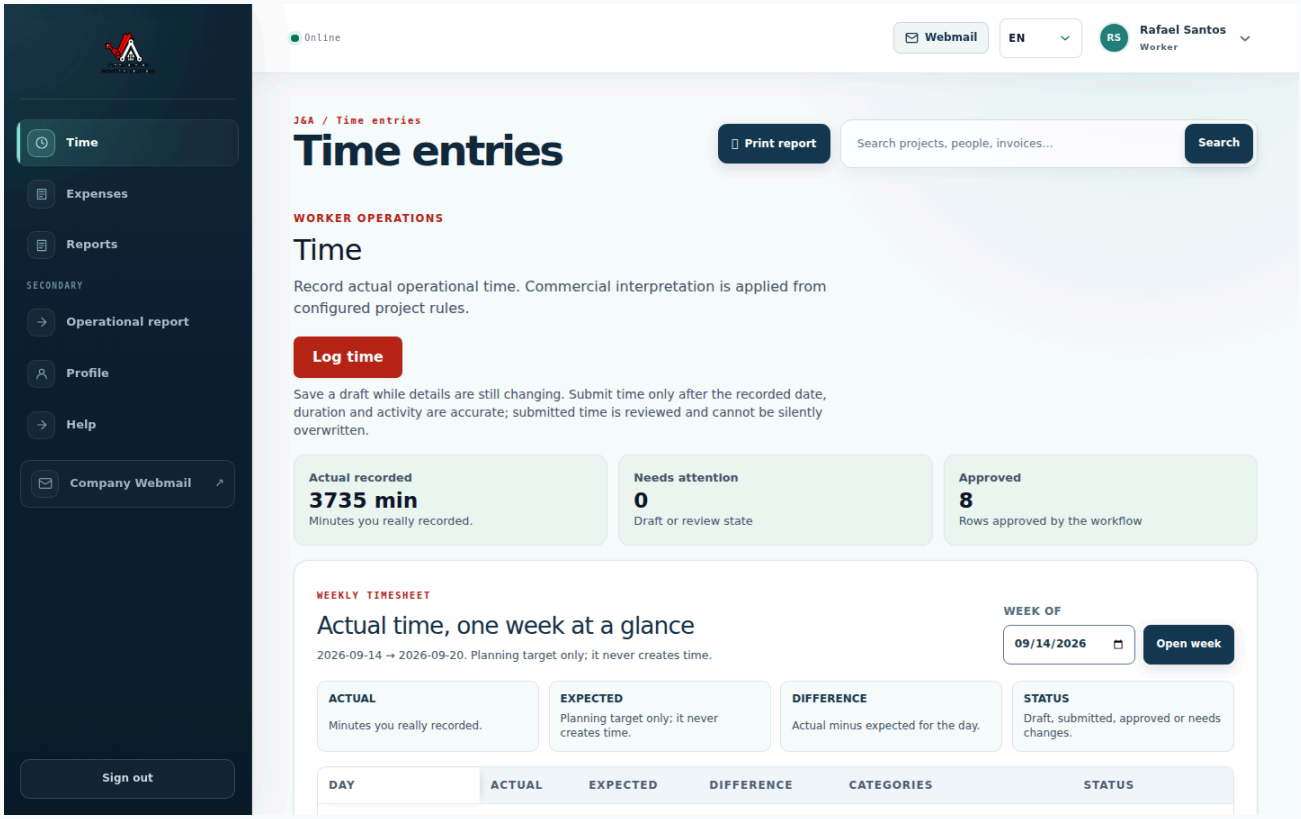

Use **Profile** for your own language and optional security settings. If your availability calendar is shown, select a day to add a UTC window or an existing window to edit it; save and verify. Available, Unavailable and Tentative are planning states, not hours worked. The calendar shows up to the latest 200 windows and a stale edit requires reload. Never use another technician's profile or identifier.

If a project disappears

Access may end when an installation grant is revoked or expires. Reload once and check the displayed assignment; do not enter work against another installation. Ask the Owner or supplier coordinator to confirm the effective grant, providing only the relevant record reference. Do not share passwords, recovery codes or customer documents.

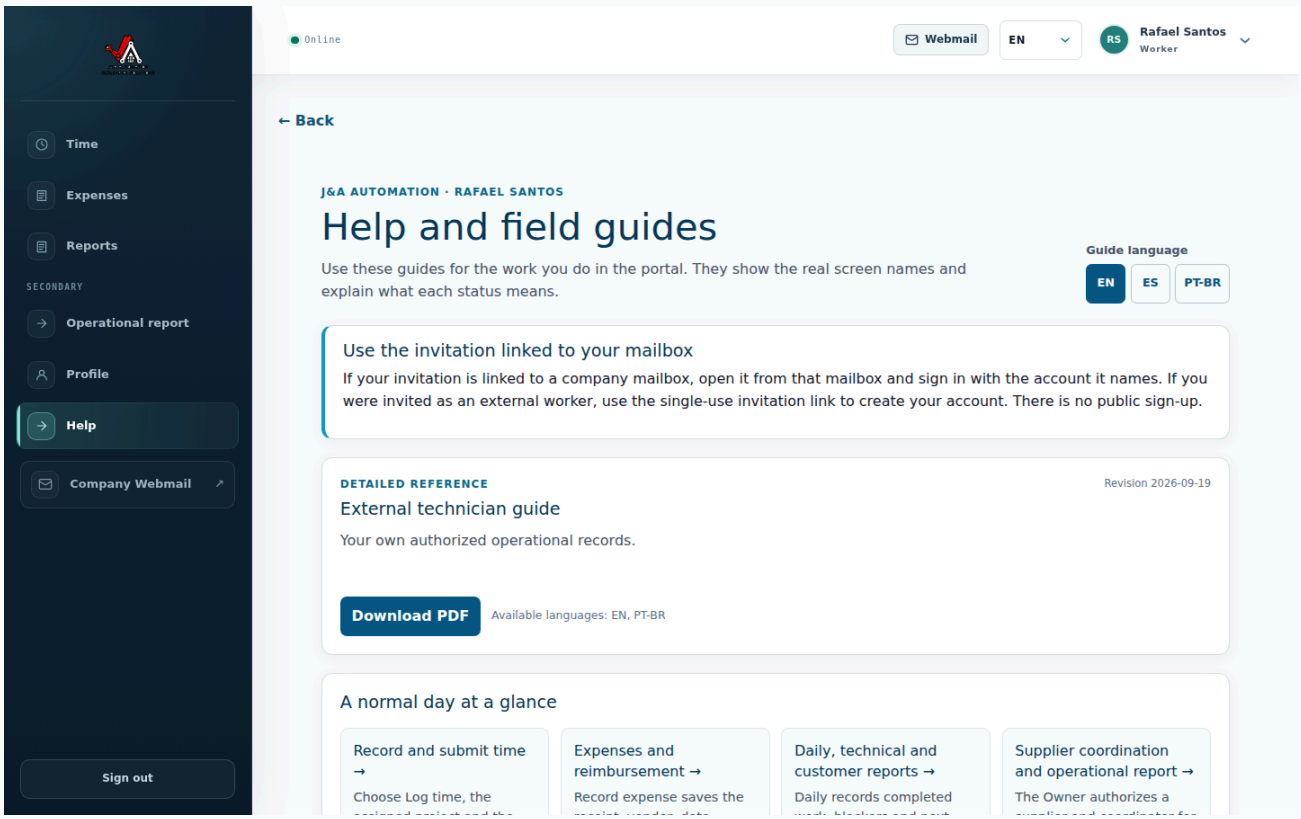

Real application screens with synthetic data

Captured with this role signed into an isolated application; no customer data is shown.

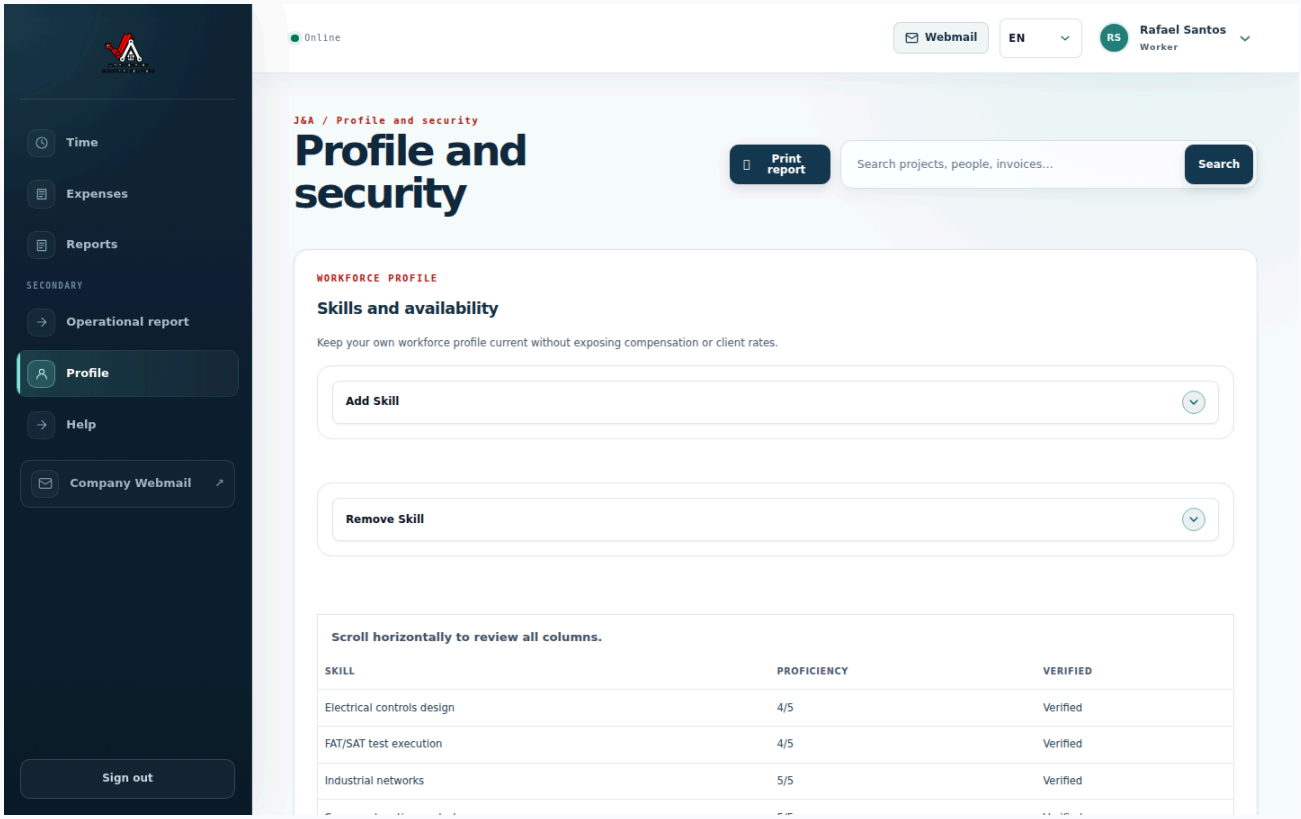

Start here: navigation and work available to this account

`/app/time?lang=en` · 1440 × 900

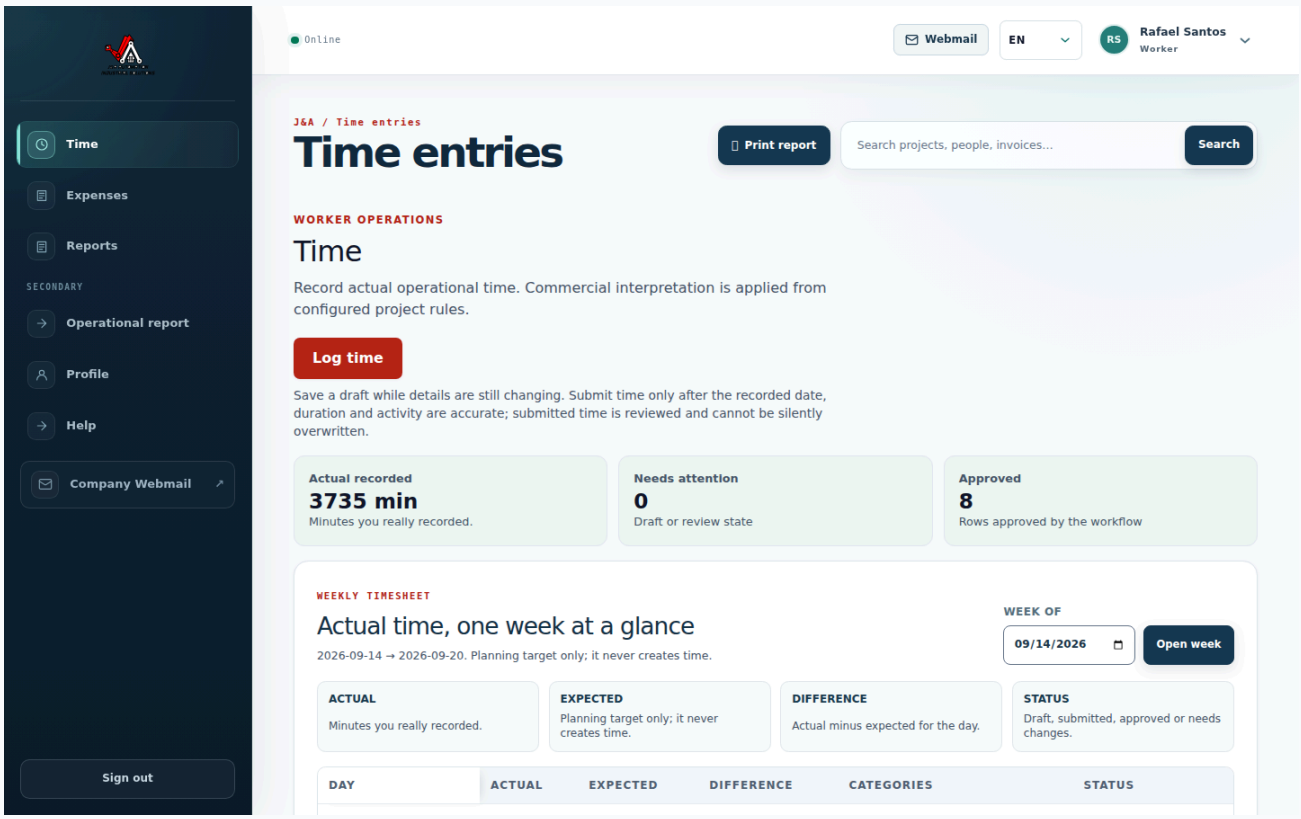

Help: download the guide assigned to this account

`/app/help?lang=en` · 1440 × 900

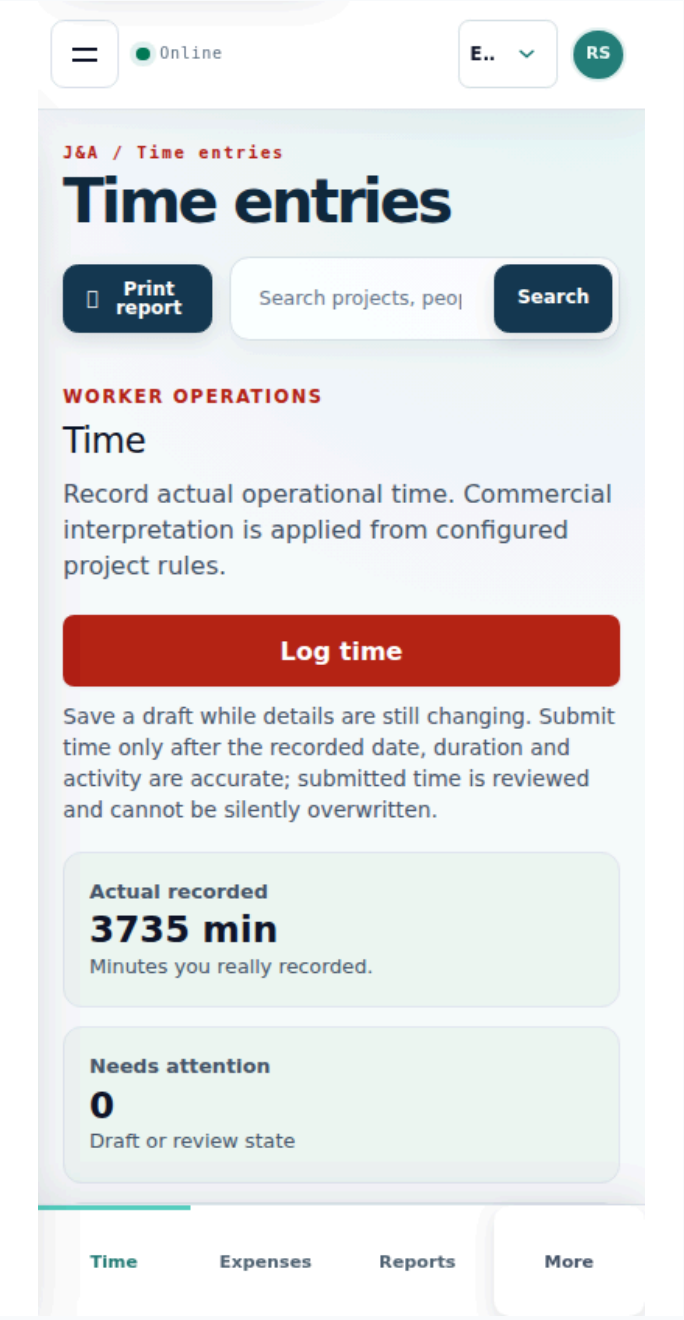

Profile: language, own identity and security settings

`/app/profile?lang=en` · 1440 × 900

Time: enter only your own factual operational work

`/app/time?lang=en` · 1440 × 900

Mobile home: the same authorized navigation on a narrow screen

`/app/time?lang=en` · 390 × 844
